This an expansion of the basic army listings in the Bolt Action: World War II Wargames Rules: World War II Wargaming Rules. What is great about this is that it goes beyond the late war French forces that the basic rule book had. So we have the pre-war French, Free French Forces and the Vichy French forces. Additionally this books lists the Polish, Norwegians, Belgians, the Dutch, the Greeks and finally the various European Resistance movements. As well like other army books published by Warlord, they list the different time frames that you could build an army up to look like per points. So it lists what a French Army unit at war start would look like and to build it up. If you want to build up your game and want to concentrate on something other than the US or the British or the Russians then this book is

for you. Otherwise, don't get it if it doesn't interest you.0 of 0 people found the following review helpful. World War II was truly a 'world' war, and many nations joined the fight against Germany and the Axis. This latest supplement for Bolt Action covers the armies of France, Poland, Czechoslovakia, Denmark, Norway, Holland and Belgium that stood against the German Blitzkrieg, as well as the resistance forces that sprung up in the aftermath of occupation, and other Allied powers, such as China, in the East.
