Warlord Games, Andy Chambers : Bolt Action: Armies of the Soviet Union before purchasing it in order to gage whether or not it would be worth my time, and all praised Bolt Action: Armies of the Soviet Union:

1 of 1 people found the following review helpful. If you have played other games with seperate army books then you know this type of book By Charles B. Another expansion of the basic army list in the original Bolt Action core rule book. Bolt Action: World War II Wargames Rules: World War II Wargaming Rules. This specializes in the Soviet Union forces and it has different army types that made up the Soviet Armies during the WW2 era. They also include the history of the Soviet Union forces from the 1917 October Revolution until the end of the Second World War Two. It adds some specialized rules with respect towards the Soviet Union forces. After that it has the point values of various portions of a Soviet army, from headquarters units to the lowly supply drivers and supply trucks. Finally, it closes up it talks about what the various units like an infantry company would look like or a tank platoon would look like in the Finnish War compared to the Battle for the Kursk to the Battle for Berlin. This is a good expansion if the Soviet union forces are what you want to play with or play against. Otherwise, if you aren't interested in it, then there

really isn't much need for this. 1 of 1 people found the following review helpful. Four Stars
By Ricky J Boggs
A must have if you will be playing Bolt Action Soviets
1 of 1 people found the following review helpful. Good content if a bit pricey
By Rick Westbrook
Good resource for Soviet players (Bolt Action players with a Soviet army that is) but it seems a bit pricey for such a thin book.

Stalin's Russian Winter War against Finland, and his World War II campaigns on Nazi Germany's eastern front (around Kiev, Leningrad, Moscow, Kharkov, Stalingrad, Kursk, Byelorussia, the Balkans, East Prussia, Warsaw, Hungary, and Berlin) constitute the largest land war in world history in terms of the number of troops engaged, and is also impressive in terms of the vast distances fought over. Russia took 20 million military and 20 million civilian casualties during a brutal four year war, and the Germans lost over 2 million military and 2 million civilian casualties as well. Bolt Action allows gamers to recreate a small part of this titanic struggle on the table-top.

About the Author
Warlord Games is one of the world's leading producers of wargaming miniatures, as well as the publisher of the successful Black Powder and Hail Caesar rule sets. Their Bolt Action range of 28mm World War II miniatures is the most extensive on the market and continues to grow and develop.
