In 1939, Germany shattered the peace of Europe with a lightning-quick strike against Poland. The next year, it captured Denmark and Norway, before launching its famous blitzkrieg against France, Belgium and The Netherlands. In less than two years of fighting, Nazi Germany had become the master of mainland Europe. This new theater book for Bolt Action allows players to command armies of Germany tanks in WWII driving across the lowlands or to lead

the desperate defense of the outgunned allied armies.
