I thought the book was relating to CD's of Broadway musicals (an update that is on a previous volume). Nevertheless it is an OK volume in relation to what is meant to do. My only criticism is that revivals are just listed with the original; productions but not necessarily reviewed. Where was "The Boy from OZ?"0 of 0 people found the following review helpful. Good, not great.By Monica WalkerThis is definitely comprehensive, but it's not particularly attractive. It's all black and white, and feels very crowded. It's difficult just to flip through. Interesting, but not as much fun as I was hoping.0 of 0 people found the following review helpful. and highly recommend it to anyone as nutty about Broadway musicals as ...By Howard GiordanoThis is my third edition of "Broadway Musicals." This one is updated to include shows through 2013. I find this reference book a most important and valuable addition to my library, and highly recommend it to anyone as nutty about Broadway musicals as I am.
