Stephen F. Cohen : Bukharin and the Bolshevik Revolution: A Political Biography, 1888-1938 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bukharin and the Bolshevik Revolution:

A Political Biography, 1888-1938:

0 of 1 people found the following review helpful. This book is an excellent well written historical account of the Bolshevik intellectual and ...By walter g. mcmillanThis book is an excellent well written historical account of the Bolshevik intellectual and theoretician named M. Bukharin.He was a true Russian ideologue/intellectual admired by N. Lenin, who like many others, believed that Socialism/Communism was the future for the Russian people.. Unfortunately, Bukharin, Trotsky, Kirov, and many others, were murdered by Stalin and his apparatchiks.1 of 3 people found the following review helpful. Nikolai Bukharin: A Political BiographyBy Emmett O'NeillIf interested in the Russian Revolution and how Stalin assumed complete power, this is a great read.Moreso though, it is an in depth look at Nikolai Bukharin, surely one of the most likeable and revered of the Bolshevik party leaders.Stalin feared Bukharin's popularity and had him arrested on ridiculous charges.The world was treated to a show trial and predictability, Bukharin was executed and shot.Bukharin was important as he was very close to Lenin and was in agreement with Lenin's New Economic Policy which allowed some capitalism on a small scale.Very few Russians in the latter years of the Soviet Union knew the person and reputation of Nikolai Bukharin.Dr. Stephen Cohen, in writing this, produced the first and definitive work on Bukharin. After Gorbachev came to power, it was translated to Russian and published.The interesting question of course, is what Russia would have become had Bukharin become the leader instead of Stalin. It still stands as the definitive political biography of Nikolai Bukharin. An excellent read.0 of 2 people found the following review helpful. I love itBy David WildeA great piece on Soviet Political History.

This classic biography carefully traces Bukharin's rise to and fall from power, focusing particularly on the development of his theories and programmatic ideas during the critical period between Lenin's death in 1924 and the ascendancy of Stalin in 1929.

"The only significant book on the earlier Soviet experience not trapped in simplistic Cold War categories. Crucial for advanced undergraduates."--Arthur Williamson, California State University at Sacramento
"This magnificent book will come to be regarded by those whose opinions are worth listening to as one of the two or three really outstanding studies in the history of the Soviet Union of the past 25 years."--Leonard Schapiro, The New York of Books
"The best book on the USSR to be published for many years."--Alec Nove, Soviet Studies
"Cohen has not only written the most significant of the recent biographies of early Soviet leaders, but he has also posed questions about Soviet history which will be central in the discussion in coming years, perhaps decades."--The Russian
"Bukharin has at last found full-length vindication in Professor Cohen's distinguished biography, undoubtedly one of the most important books on Soviet politics to appear in recent years."--Political Science Quarterly
About the Author
Stephen F. Cohen is at Princeton University.
