By Justin This is an excellent collection of some of Malcolms speeches and interviews but the introduction and other non-malcom bits of writing are definitely from the perspective of a socialist "revolutionary" and the book itself is somewhat clearly intended to prop up the socialist cause. This really detracts from the objective and historical nature of the book. 0 of 0 people found the following review helpful. Five Stars By Marvin Donatto This book is outstanding. 0 of 0 people found the following review helpful. Five Stars By Ted Shelton very infomrative

The imperialists know the only way you will voluntarily turn to the fox is to show you a wolf. In eleven speeches and interviews, Malcolm X presents a revolutionary alternative to this reformist trap, taking up political alliances, women's rights, U.S. intervention in the Congo and Vietnam, capitalism and socialism, and more.
