**Peter Barratt : Circle of Fire - The Story of the USS Susquehanna in the War of the Rebellion** before purchasing it in order to gage whether or not it would be worth my time, and all praised Circle of Fire - The Story of the USS Susquehanna in the War of the Rebellion:

Circle of Fire tells the story of the Union side-wheel sloop of war Susquehanna in the War of the Rebellion. From chasing elusive Confederate blockade runners and commerce raiders to bombarding Rebel shore fortifications - the Susquehanna's tale is based on contemporary records backed up with rarely published photos, maps and engravings of the vessel, her commanders and crew and the battles she fought in. Following her return from duty with the Mediterranean squadron she is soon in the thick of the action at Hatteras Inlet and Port Royal. Circle of Fire is more than the story of a Union warship in the Civil War. it is a glimpse into the inner workings of the blockade of the Confederacy as seen through the career of one of the Union navy's longest serving warhorses. the USS Susquehanna. The text is profusely illustrated throughout and there are appendices containing a crew roster, ship plans and specifications.

... an excellent job...Circle of Fire is well written and interesting...great interest to Civil War naval enthusiasts. -- Civil War News, January 2006... documentation that is both entertaining and informative...worthy of anyone's time who enjoys the Civil War or US Navy. -- The Daybook, Hampton Roads Naval Museum, Vol 11,issue 1...a remarkable job...will appeal to those interested in steam warships and life at sea during the Civil War. -- Marine News, journal of the World Ship Society, 2006

From the Author  
In the five years of research into the vessel, her crew and the story of the blockade I became more and more impressed with the skill and determination shown by the Union Navy in its mammoth task of blockading the coastline of the Southern Confederacy. I hope the finished narrative does justice to those officers and men who risked the hazards of the sea and Rebel shot and shell to clamp a stranglehold on the Confederacy

About the Author  
Peter Barratt is 55 years of age and lives with his family in Bromley, some 10 miles south of London in the county of Kent. He has spent his career in the advertising, design and printing industries. His enthusiasm for the American Civil War – and indeed all things military - stretches back to childhood. He is a member of the UK American Civil War Round Table and for many years was a member of a Confederate 'Living History' volunteer infantry company. Apart from writing articles and lecturing on the Civil War he was historical/technical adviser on a CD-Rom history of the conflict. This is his first book and is the fruit of several years' research on the steamship Susquehanna and her part in the Union naval blockade of the Southern coast and the various actions the Susquehanna fought in.
