Great source of obscure facts....small photos thoughBy Dane BrosseauAmazing source of information and lots of obscure and even forgotten images of the war....most pictures are a little small though fitting many pictures on each page....there really aren't any large photographs taking up entire pages, some of these great photos really deserve an entire page.1 of 1 people found the following review helpful. Huge bookBy PostitnoterI bought this book as a gift for my nephew who is a history buff, it has been over a year and it is still sitting on my coffee table. Maybe one day I will have read it enough to go ahead and pass it on. The book it full of interesting pictures with just enough text to explain the details. Very sad and moving. I leaf through while watching tv when I have the time. Someday I am either going to give my nephew his book or just buy him a new one.0 of 0 people found the following review helpful. enhanced with numerous essays by our country's finest Civil War historians, who provide an overview of each battle, and describe each image. 4000 illustrations. Size 9 x 12 inches.
