1 of 2 people found the following review helpful. Financing Civil War blockade runningBy Barto ArnoldFirst a disclosure: I am the editor of this volume. This biography of Confederate financial agent Colin McRae is now offered in an expanded 2008 edition which includes archival documents, correspondence and accounting records that illustrate how this man was instrumental in the financial management of the Southern States during the Civil War. Arnold (Texas AM U.) has easily doubled Davis' original 1960 text, adding more insight into how McRae used blockade running along the Trans-Mississippi coast to shore up financial strength in order to fight the war. Written for Civil War history buffs and students, this book contains plenty of photographs of the original documents and correspondence. Distributed by Eliot Werner Publications. Denbigh Shipwreck Project Publication No. 4.
