and Resistance in Napoleonic Europe: State-Formation in an Age of Upheaval, c.1800-1815:

In this fascinating study Michael Rowe focuses on state-formation in Napoleonic Europe. It brings together the research findings of specialists in the histories of Europe's constituent nations and states during a momentous period in their development. Thematically focused and integrated within a comparative framework, the individual contributions explore areas as diverse as Britain, France, Germany, Hungary, Italy, Poland, Spain and Russia. What impact did Napoleon have on these nations, and how did they respond to his challenge?

'A geographically wide-ranging, thematically thought-provoking and historiographically-timely essay collection by a team of distinguished scholars which should appeal to both specialists and students.' - Raymond Pearson, Professor of Modern European History, University of Ulster, Northern Ireland
