**Brian D. McKnight : Confederate Outlaw: Champ Ferguson and the Civil War in Appalachia (Conflicting Worlds: New Dimensions of the American Civil War)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Confederate Outlaw: Champ Ferguson and the Civil War in Appalachia (Conflicting

Worlds: New Dimensions of the American Civil War):

3 of 4 people found the following review helpful. A bit too heavyBy BeeperdoI've done some study of the subject matter in this book and almost gave up on it in the first 10 pages. Quickly define Pennyroyal, Manichean, and internecine without a reference aid. Get the idea? The words pragmatism and pragmatic are terribly overused. The author is an obvious scholar and student of the Civil War in Appalachia. What is missing is the ability to relate a very compelling story to an average reader in terms they can readily understand. This book offers no answers and perhaps there are no answers to give. The Champ Ferguson story is an enigma that will forever be tainted with opinion. This book is the most well researched study I have ever encountered on this subject. The author has spent considerable time in putting this work together. Too bad he didn't spend more time in conveying that research in readily, understandable terms. I would have enjoyed his efforts much more.2 of 3 people found the following review helpful. Great BookBy Katherine WebbA lot of local history here and very interesting things about Champ Ferguson and the times. I definitely would recommend if you like Civil War history0 of 1 people found the following review helpful. Five StarsBy Jammie GoffI purchased this for my father because some of our relatives are mentioned in the book.

Winner, 2012 Tennessee History Book Award given by the Tennessee Library Association and Tennessee Historical Commission.

"This vivid portrait of one of the Civil War's legendary renegades is a welcome addition to the ever-expanding scholarship on guerrilla warfare. Brian McKnight adeptly draws on Champ Ferguson's ruthless and reckless exploits to provide fresh insights into the complex forces that propelled southern highlanders into a far more personal and localized conflict than that waged elsewhere in the Confederate South. A masterful study of both the man and the Appalachian society that produced him and his compatriots." --John C. Inscoe, author of *Race, War, and Remembrance in the Appalachian South*"This insightful and deeply researched book paints a vivid picture of the infamous Rebel guerrilla Champ Ferguson and the war-torn mountain region where he pursued his homicidal career. An important contribution to our understanding of the Civil War in southern Appalachia." --Stephen V. Ash, author of *Firebrand of Liberty: The Story of Two Black Regiments That Changed the Course of the Civil War*About the AuthorBrian D. McKnight is Associate Professor of History at the University of Virginia's College at Wise. His book, *Contested Borderland: The Civil War in Appalachian Kentucky and Virginia*, won the James I. Robertson Literary Prize in 2007.
