It's just not worth much time or effort to read about these people.. The author writes about a lamentable fact that many Southern people are of the ridiculous belief that the South should have won. They sometimes are the lunatic fringe and sometimes just regular idiots. As a Southern person, I certainly have met some. Thankfully, they are dying out.1 of 1 people found the following review helpful. Does the "old south" still exist? Yes it does.By debrabl333Excellent book about southern people who seem to be stuck
