Antulio J. Echevarria : Military Strategy: A Very Short Introduction (Very Short Introductions) before purchasing it in order to gage whether or not it would be worth my time, and all praised Military Strategy: A Very Short Introduction (Very Short Introductions):

0 of 0 people found the following review helpful. Good review on classic strategies, not so much on contemporaryBy Darius HintonGood quick review of the basic military strategies, although the section on cyber was lacking, severely.5 of 5 people found the following review helpful. SHORT BUT POTENTBy Francis G. HoffmanInvaluable, should probably be issued to all grad school programs. The clarity and conciseness of expression is superb, useful for novices to senior military professionals.6 of 7 people found the following review helpful. Gratitude to Those Who ServeBy Aaron D BrockmanMy most interesting College courses were taught by scholars like this author. Not only are the points this book makes superbly articulated, but the examples highlight the practical real-world implications that learning...Real Learning is supposed to accomplish. Lucky are the men and women who defend our Nation who have had, and continue to have, the opportunity to Really Learn from a gentleman of this stature.

Distilling the ideas of the greatest military theoreticians of history, including Sun Tzu, Niccolò Machiavelli, and Carl von Clausewitz, Antulio J. Echevarria II presents a fascinating account of the "art of the general." Drawing on historical examples, from Hannibal's war against Rome to Napoleon's victory at Austerlitz, from the Allies' campaign to overwhelm Hitler's fortress to the terror attacks of September 11, Echevarria vividly describes the major types of military strategy and their advantages and disadvantages.Clear and engaging, this book shows that military strategy is essential for understanding major events of the past and becomes even more critical today, in a world increasingly threatened by weapons of mass destruction, terrorist attacks, and new dimensions of conflict such as cyberwar and space.

"Antulio Echevarria, drawing on his deep knowledge of the field, provides a systematic, succinct, and incisive guide to the main themes of military strategy. Invaluable for both students and practitioners." -Lawrence Freedman, author of *Strategy: A History* About the AuthorAntulio J. Echevarria II is the Editor of the *US Army War College Quarterly*. Prior to that, he was the Director of Research at the US Army War College. He is the author of *Clausewitz and Contemporary War*, *Imagining Future War*, and *After Clausewitz*, and of several articles on military thinking and contemporary war.
