**Ann Coulter : Mugged: Racial Demagoguery from the Seventies to Obama** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mugged: Racial Demagoguery from the Seventies to Obama:

11 of 12 people found the following review helpful. Well researched, informativeBy MoriartyIf you feel you always have to smile at a black person you don't know (but wouldn't for whites), if you think blacks are massively victimized, if you believe the Republicans had a Southern strategy, if you think Democrats brought the first blacks in as governors

and representatives, if you believe rapes and murders of whites on black abound, if you believe it is black culture that created words like "ax" for ask, you should read this book because your mind has been mugged by the mainstream media, poor education, and race mongers like Al (King has a dream, I have a scheme) Sharpton. Coulter has a point of view, and it can come on as strong, but she backs up her points. She keeps the book light by adding liberal (oh my!) doses of humor. Unlike one reviewer, I did not run across a lot of confusing sentences. There were a couple I needed to reread. Mostly, had to look up words new to me, which were well used once I understood them. 0 of 0 people found the following review helpful. THANKS FOR A WONDERFUL TAN By Ira Martel Coulter is great! I'd love to hang out with her. Brilliance that just doesn't stop. A real winner! In 1967 a speaker came to my school who had a sense of humor that would match Coulter's. When I, as Student Body President, was asked to comment on him I said something that I might say about Ann today. 'IF LAUGHTER IS THE SUNSHINE OF THE SOUL, THANKS FOR A WONDERFUL TAN. 1 of 1 people found the following review helpful. I've recommended this book to every conservative and open-minded person I ... By Customer Ann is hilarious and 100% correct as usual. I've recommended this book to every conservative and open-minded person I know. Get a better understanding of race in America...read this book!

“Few things are as rare as an honest book about race. This is one of the very few, and one of the very best.”—Thomas Sowell For decades, the Left has been putting on a play with themselves as heroes in an ongoing civil rights movement—from which they were mostly absent at the time. Ann Coulter fearlessly explains the real history of race relations in this country, including how white liberals twist that history to spring the guilty, accuse the innocent, and engender racial hatreds, all in order to win politically. She shines the light of truth on cases ranging from Tawana Brawley to the LA riots and the Duke lacrosse scandal. And she shows how the Obama presidency has inspired the greatest racial guilt mongering of all time.

“Mugged is not just a book—it’s a public service.”—The American Spectator “A refreshing and informative antidote to the divisive narratives about race perpetuated by politicians and the mainstream media.”—The Washington Times About the Author Ann Coulter is the #1 New York Times bestselling author of eight books. She is the legal correspondent for Human Events and a syndicated columnist for Universal Press Syndicate. Visit [www.anncoulter.com](http://www.anncoulter.com)
