The most detailed description of Napoleon's greatest victoryBy A CustomerThis is a beautiful and detailed look at Napoleon's Grand Armee during the peak years of conquest. The book contains many illustrations/maps and is well researched. I've never read a better account of the Ulm/Austerlitz campaign.

A highly detailed combat study of Napoleon's 1805 Ulm-Austerlitz campaigns, this book is based on exhaustive use of French archival research. Sweeping battle narrative, coupled with new, detailed maps and orders of battle make Napoleon and Austerlitz a must.
