If you need some help working with Historex figures I would suggest money would be better spent on Shep Paine's old diorama books. They are a lot cheaper and have more and better builder information.5 of 6 people found the following review helpful. Superb modelling bookBy danny boyI am surprised that there is no review for this book. I own a copy and it must be one of the best book on modelling figurines

out there. The author is highly experienced and talented, profusely illustrating these books with his own unique models. He specialises in the conversion of plastic figures, animating them into little jewels of miniatures. Get this book. 0 of 3 people found the following review helpful. The item must have spent some time on a shelf who's previous owner didn't know how to clean their hands after painting. The publication is littered with FBI quality fingerprints on various pages throughout. Unfortunately, I had to remove paint from the cover as well.
