## Nazi Germany and the Jews, 1933-1945: Abridged Edition

*Saul Friedlander*

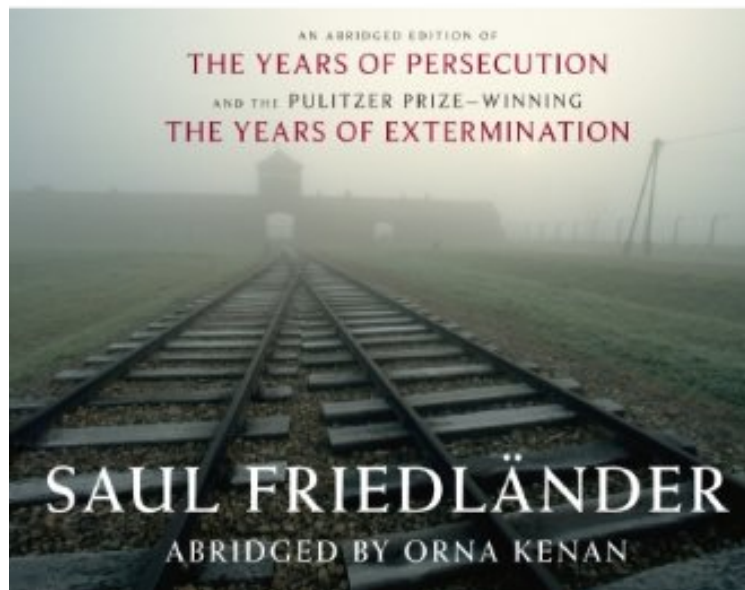

*ePub | \*DOC | audiobook | ebooks | Download PDF*

"Establishes itself as the standard historical work on Nazi Germany's mass murder of Europe's Jews. . . . An account of unparalleled vividness and power that reads like a novel. . . . A masterpiece that will endure."

—NEW YORK TIMES BOOK REVIEW, ON THE YEARS OF EXTERMINATION, 1929–1945

**Saul Friedlander : Nazi Germany and the Jews, 1933-1945: Abridged Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Nazi Germany and the Jews, 1933-1945: Abridged Edition:

2 of 2 people found the following review helpful. Somewhat confusing with time jumps, but GREAT informationBy professortruthPicking a rating is impossible to do accurately. The information provided is absolutely GREAT. But it is so jumpy back and forth in time and so incomplete on the final ending and liberation that I was left without knowing

the outcome and condition at the end. I'm a student of the Holocaust and have had a chance to talk at length with a number of survivors and what happened to them as the Nazi troops hurried to hide their work and disposed of the survivors, If I were to give it a new title I'd be inclined to say 1933 to 1944. BUT, having said that, this is filled with the human stories and the facts of the things that happened, It is WELL WORTH READING, BUT NOT AS THE ONLY SOURCE. 1 of 1 people found the following review helpful. "Those who don't remember history are condemned to repeat it." By RisingWolf Not just another WWII history text. This book is one the most important documentaries about the ultimate human depravity called naziism and how they committed unspeakable horrors against a defenseless prey. I used to think of the Holocaust as evidenced by the camps and the ovens but I am now aware of the atrocities the helpless Jews of Europe suffered before being loaded on the trains and delivered to the killing camps. I knew there had been mass executions but I didn't have a clue as to the hundreds of thousands murdered enmass before they even left their villages and towns. The nazis were devious, deceitful, inhuman brutes who are still with us. This is a wake up call! 1930's/40's Europe didn't think a gang of goose stepping criminals and thugs who seemed comedic and irrelevant were worth worrying about and could be managed. The events and human tragedy related here attest to the opposite. READ IT!! 0 of 0 people found the following review helpful. Harrowing By Douglas A. Haff This was one of the most difficult books I have read. I could only read a chapter or so at a time. It was so depressing. No one comes out well. While Germany bears the largest responsibility no one is innocent. The occupied areas often enthusiastically cooperated with the killings especially in east Europe. The western countries refused refuge even after it became clear that the killings were happening. The organized religions come out no better although any resistance to the regime was usually based on religious faith. The only lack is the understanding that once a totalitarian state is established it is almost impossible to overthrow. The group that totally disgraced itself was the military. Only they had the power to act and with a few exceptions soiled their honor. This book should be required reading for all college students.

Nazi Germany and the Jews, 1933-1945 is an abridged edition of Saul Friedländer's definitive Pulitzer Prize-winning two-volume history of the Holocaust: *Nazi Germany and the Jews: The Years of Persecution, 1933-1939* and *The Years of Extermination: Nazi Germany and the Jews, 1939-1945*. The book's first part, dealing with the National Socialist campaign of oppression, restores the voices of Jews who were engulfed in an increasingly horrifying reality following the Nazi accession to power. Friedländer also provides the accounts of the persecutors themselves—and, perhaps most telling of all, the testimonies of ordinary German citizens who, in general, stood silent and unmoved by the increasing waves of segregation, humiliation, impoverishment, and violence. The second part covers the German extermination policies that resulted in the murder of six million European Jews—an official program that depended upon the cooperation of local authorities and police departments, the passivity of the populations, and the willingness of the victims to submit in desperate hope of surviving long enough to escape the German vise. A monumental, multifaceted study now contained in a single volume, Saul Friedländer's *Nazi Germany and the Jews, 1933-1945* is an essential study of a dark and complex history.

About the Author Born in Prague, Saul Friedländer spent his boyhood in Nazi-occupied France. He is a professor of history at UCLA, and has written numerous books on Nazi Germany and World War II.
