Gerald Horne : Negro Comrades of the Crown: African Americans and the British Empire Fight the U.S. Before Emancipation before purchasing it in order to gauge whether or not it would be worth my time, and all praised Negro Comrades of the Crown: African Americans and the British Empire Fight the U.S. Before Emancipation:

0 of 0 people found the following review helpful. RecommendBy Clear Lake ManTakes a close look at an overlooked story in American history.0 of 0 people found the following review helpful. Discovers the truth and makes it fascinating.By Mary K Perkins, Ph.D.One in a series of Prof Horne's books on the topic. Magnificent. Profoundly creative and insightful. Could not put it down.0 of 0 people found the following review helpful. re: informative, thorough readBy John HatcherI really enjoyed this book! I learned a lot that isn't taught in grade school, high school or college. I recommend it for anybody. Mr. Horne did his homework!!

While it is well known that more Africans fought on behalf of the British than with the successful patriots of the American Revolution, Gerald Horne reveals in his latest work of historical recovery that after 1776, Africans and African-Americans continued to collaborate with Great Britain against the United States in battles big and small until the Civil War. Many African Americans viewed Britain, an early advocate of abolitionism and emancipator of its own slaves, as a powerful ally in their resistance to slavery in the Americas. This allegiance was far-reaching, from the Caribbean to outposts in North America to Canada. In turn, the British welcomed and actively recruited both fugitive and free African Americans, arming them and employing them in military engagements throughout the Atlantic World, as the British sought to maintain a foothold in the Americas following the Revolution. In this path-breaking book, Horne rewrites the history of slave resistance by placing it for the first time in the context of military and diplomatic wrangling between Britain and the United States. Painstakingly researched and full of revelations, *Negro Comrades of the Crown* is among the first book-length studies to highlight the Atlantic origins of the Civil War, and the active role played by African Americans within these external factors that led to it.

"Although not the easiest read, Horne's book is a valuable contribution on a subject of profound interest and significance." -*Journal of American History*"Gerald Horne's book is a tribute to the international struggle of Africans for human dignity. It also reveals the unstated fears and unearths the historical justification in the souls of white folks—recognizing the institutional silence that this book aims to pierce."-*Black Agenda Report*"Now that the old feudal order is experiencing a resurgence with the assistance of wealth, a corporate media and official historians, Gerald Horne, one of our most original historians, reminds us of the alliance of Africans, Europeans and Native Americans that fought against its antecedent anachronism. In this brilliant, stunning book, Horne shows us how the issue of slavery still intrudes upon our national discussions."
