**Francis Morrone : New York City Landmarks** before purchasing it in order to gage whether or not it would be worth my time, and all praised New York City Landmarks:

"A perfect guide to New York City - if you have been a visitor this will fill you with nostalgia, and if you have never visited this will inspire you to pack your bags! Highly recommended!" Hot Brands, Cool Places"With its handsome photographs and skillful descriptions, it's a book that is as fitting a memento as it is a guide." Archidose"The photography alone is reason to love this book." Whom You KnowIn this book, Jake Rajs' amazing eye has captured

more than 70 of New York City's most celebrated landmarks in ways never seen before, including the newest additions to New York's landscape, The Freedom Tower and the Whitney Museum of American Art. Each image is accompanied by a short text, written by Francis Morrone, offering the full details of the monument - the date built, the location, the architect/designer - as well as a comprehensive history and anecdotal tidbits.
