War and Class on the Neo-Colonial terrain:

A book that should be read by anyone who gives a damn about a non-racist, non-sexist, non-homophobic future. [Bo Brown]. The transformation to a neo-colonial world has only begun, but it promises to be as dramatic, as disorienting a change as was the original european colonial conquest of the human race. Capitalism is again ripping apart and reconstructing the world, and nothing will be the same. Not race, not nation, not gender, and certainly not whatever culture you used to have. [from the preface] Butch and Red break it down, how it all fits together, how to break it apart again.
