I especially enjoyed his early chapters that centered on the rise of ...By John FThe author presents an extremely readable book on the abolition movement in Upstate New York, centering mainly on the Syracuse, Utica, Rochester areas. I especially enjoyed his early chapters that centered on the rise of the movement through the Second Awakening, mainly the ministry of Charles G. Finney. I also had no knowledge of the Oneida Institute and Beriah Green and the role it played in the biracial education of so many of the abolitionists. The cover for the book is a daguerreotype of the 1850 Cazenovia Convention held to protest the Fugitive Slave Law. The photo is mesmerizing. In it are pictured whites, African-Americans, women and men with no segregated sense to it. A photo representing equality of race and gender. Overall, very readable and informative. 0 of 0 people found the following review helpful. Excellent account of unique period of our history By D. L. H. Having grown up in the Finger Lakes of NYS, and having had a GG-grandfather who was part of the Underground RR, I was delighted to find this historical account of a movement and a time in Central NYS that shaped the Nation. "North Star" is an academic read, but well worth it for anyone with related interests. 0 of 0 people found the following review helpful. Five Stars By Karol Kucinskigraet book

The compelling and wide-ranging tale that examines the moral choices made by blacks and whites of New York State to aid the newly freed slaves to secure the promise of freedom. The North Star was both an astronomical reference guiding slaves north to freedom, and a symbol of the moral enterprise that sought to end slavery. This crusade for freedom in the north was born of the religious revivals of the 1820s and 1830s in central and western New York - known as the Burned-Over District, which lit the fires that eventually burst into the conflagration of the Civil War. Milton C. Sernett begins with a history of slavery in upstate New York and ends with John Brown's execution and burial in the Adirondacks. He includes great abolitionists - among them Harriet Tubman, Frederick Douglass, Gerrit Smith, Beriah Green, Jermain Lougen, and Samuel May - and many lesser-known characters who rescued fugitives from slave hunters, maintained safe houses along the Underground Railroad, and otherwise furthered the cause of freedom.
