Ken Ham, A. Charles Ware : One Race One Blood before purchasing it in order to gage whether or not it would be worth my time, and all praised One Race One Blood:

You get the sad history of racism and then the scientific/genetic evidence showing there is little actual genetic difference between the "races". The differences between the "races" are mostly cultural and Ham proposes that "we do away with using the term 'race' when discussing the different groups of people in the world." He shows that genetically "there is far more variation within a people

group than there is between one people group and another." Coauthor Ware (a world leader in multicultural reconciliation) encourages us and rounds out the book with: Biblical teaching on "grace relations", examples of reconciliation for us to follow, and the example of his own Church and College. Not too much technical stuff, but well written by leaders in their fields, and a book I would like to give out to others. 1 of 1 people found the following review helpful. Very good book. Explains the truth that we are all ...By Kevin Gentzler Very good book. Explains the truth that we are all just one race o matter our skin color. Race is something we as humans have made up to control others and manipulate our society. This book reveals the truth from scripture, the Bible, about our blood and the connection to our race. 2 of 2 people found the following review helpful. Good ReadBy NETCARDOThis one was good, heavy stuff but I was required to read, maybe on my own I wouldn't have bought this book. Nevertheless it worth your time to read it.

It is a rarely discussed fact of history that the premise of Darwinian evolution has been deeply rooted in the worst racist ideology since its inception. Read a thorough account of the effects of evolution on the history of the United States and discrimination based on ethnicity, including slavery and the Civil rights movement. One Race One Blood goes one step farther to show the global harvest of death and tragedy that still finds its roots in Darwin's destructive writings. The tragic legacy of Darwin's controversial speculations on evolution has led to terrible consequences taken to the deadliest extremes. One Race One Blood reveals the origins of these horrors, as well as the proof revealed in Scripture that God created only one race. You will discover: Nazi Germany used evolutionary concepts to justify the extermination of "unfit" people groups such as Jews, Gypsies, and Slavs The origins of people groups, the genetics of skin color, and what the Bible says about "interracial" marriage Eye-opening discussion on racism and its roots in the hearts and minds of millions still today. Within these compelling pages, Dr. A. Charles Ware, president of Crossroads Bible College, and Ken Ham, president of Answers in Genesis examine the historical roots of racism that have permeated evolutionary thought, and the Bible's response to this disturbing issue. This is a crucial and timely study that profoundly addresses the Christian worldview regarding "race" from a compassionate and uniquely compelling perspective.
