**From Naval Institute Press : The U.S. Naval Institute on Naval Strategy (The U.S Naval Institute Wheel Book Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The U.S. Naval Institute on Naval Strategy (The U.S Naval Institute Wheel Book Series):

1 of 1 people found the following review helpful. Great intro by authorities. By Customer There are so few books to be

had on naval strategy, this collection works great to understand principles.

In the U.S. Navy, "Wheel Books" were once found in the uniform pockets of every junior and many senior petty officers. Each small notebook was unique to the Sailor carrying it, but all had in common a collection of data and wisdom that the individual deemed useful in the effective execution of his or her duties. Often used as a substitute for experience among neophytes and as a portable library of reference information for more experienced personnel, those weathered pages contained everything from the time of the next tide, to leadership hints from a respected chief petty officer, to the color coding of the phone-and-distance line used in underway replenishments. In that same tradition, the new Naval Institute Wheel Books will provide supplemental information, pragmatic advice, and cogent analysis on topics important to all naval professionals. Drawn from the U.S. Naval Institute's vast archives, the series will combine articles from the Institute's flagship publication *Proceedings*, selections from the oral history collection and from Naval Institute Press books to create unique guides on a wide array of fundamental professional subjects. Strategy is described by the *Dictionary of Modern Strategy and Tactics* as having "a permanent nature, but an ever-changing character." For more than a century, both the nature and the character of this essential discipline have been explored in depth by contributors to the Naval Institute's magazines, books, and oral histories. Drawing from those powerful resources, this collection makes clear why naval strategy has always straddled the boundaries between art and science and why its study and employment are essential components of the sea service profession.

"Naval Strategy is a remarkable anthology of outstanding articles on the subject. The selected articles provide sufficient information to raise alternatives and to further inform debate. This book is not just a tool for professional education, it is also a catalyst for future intellectual discussion. Every serious naval professional and every Ward Room should have a copy."—Australian Naval Institute  
"Comprising a series of essays written by some of America's most illustrious naval names ranging from Stansfield Turner through James Stavridis to Norman Friedman, this fine collection of writings from the U.S. Naval Institute's archive provides an easy way for the modern naval officer to learn from history. Strategy is a complex concept that is too frequently misrepresented in literature. The careful selection and editing of this collection avoids that danger absolutely. As in most of life, very little is achieved in naval operations without a carefully defined and articulated strategy. While focused on naval strategy, this little book is just as valuable for army and air force officers and, indeed, businessmen and women."—Baird Maritime.com  
About the Author  
Thomas J. Cutler is a retired lieutenant commander and former gunner's mate second class who served in patrol craft, cruisers, destroyers, and aircraft carriers. His varied assignments included an in-country Vietnam tour, small craft command, and nine years at the U.S. Naval Academy, where he served as Executive Assistant to the Chairman of the Seamanship Navigation Department and Associate Chairman of the History Department. While at the Academy, he was awarded the William P. Clements Award for Excellence in Education (military teacher of the year). He is the founder and former Director of the Walbrook Maritime Academy in Baltimore. Currently he is Fleet Professor of Strategy and Policy with the Naval War College and is the Director of Professional Publishing at the U.S. Naval Institute. Winner of the Alfred Thayer Mahan Award for Naval Literature, the U.S. Naval Institute Press Author of the Year, and the U.S. Maritime Literature Award, his published works include *NavCivGuide: A Handbook for Civilians in the U.S. Navy*; *A Sailor's History of the U.S. Navy* [one of the books in the Chief of Naval Operations Reading Program]; *The Battle of Leyte Gulf*; *Brown Water, Black Berets: Coastal Riverine Warfare in Vietnam*; and the 22nd, 23rd (Centennial), and 24th editions of *The Bluejacket's Manual*. His other works include revisions of Jack Sweetman's *The Illustrated History of the U.S. Naval Academy* and Dutton's *Nautical Navigation*. He and his wife, Deborah W. Cutler, are the co-editors of the *Dictionary of Naval Terms* and the *Dictionary of Naval Abbreviations*. His books have been published in various forms, including paperback and audio, and have appeared as main and alternate selections of the History Book Club, Military Book Club, and Book of the Month Club. He has served as a panelist, commentator, and keynote speaker on military and writing topics at many events and for various organizations, including the Naval History and Heritage Command, Smithsonian Institution, the Navy Memorial, U.S. Naval Academy, MacArthur Memorial Foundation, Johns Hopkins University, U.S. Naval Institute, Armed Forces Electronics Communications and Electronics Association, Naval War College, Civitan, and many veterans' organizations. His television appearances include the History Channel's Biography series, AE's *Our Century*, Fox News Channel's *The O'Reilly Factor*, and CBS's *48 Hours*.
