Walter Ehrlich : They Have No Rights: Dred Scott's Struggle for Freedom before purchasing it in order to gage whether or not it would be worth my time, and all praised They Have No Rights: Dred Scott's Struggle for Freedom:

0 of 3 people found the following review helpful. A Landmark Case in American History By J Martin Jellinek They Have No Rights Covers the trials of Dred Scott and traces the legal wrangling that led to a decision that contributed to the start of the Civil War. The history of the trials and the people involved is a fascinating chapter in American

History. That said, I found this book to be rather tedious reading. Although I have never read a law textbook, I would guess that they are written much like this book. It is dry with lots of facts and little background. Although the author attempts to be neutral, the author very obviously comes down on the politically correct side of the prohibitionists. This was disconcerting in what I thought would be a historical study.

They Have No Rights is a historical account of the famous Supreme Court case, *Dred Scott v. John F. A. Sanford*, that influenced the Presidential election of 1860 and triggered a chain of events that thrust the United States into the Civil War.

"This clearly written, superbly researched volume by an acknowledged scholar will most certainly become the standard treatment of the *Dred Scott* case....Recommended as a serious work for serious historians. Academic libraries will find it a worthy addition to their holdings in 19th-century American and constitutional-legal history."-Choice?
