I want to write an excellent review and I was looking forward to reading this book, but unfortunately, I never received it.By CustomerI want to write an excellent review because I really like Prophetess Rosalind Solomon. I enjoy listening to her on her you tube channel, "Prophetic Mantle" and reading different blogs she post on her website: [...]. She is truly inspirational, Real and speaks truth... I was looking forward to reading this book because I really love her work, but I never received it... :(

This book is showing proof with picture and text from picture and scrolls how blacks were here first and all other races and nation's come from the black Hebrew race. This book also shows how the black's history was changed, alter, erase and lied about to hide the truth? As you know God will always make sure his truth will always come out. This Book is part two from the first Book called This is about Black People Book Part One So If you have brought this one please buy the first one it is even more interesting be bless.
