I have found his series of Amer Hist to be very clear and interesting. Thus far all 5 stars. My focus has been on Lincoln History/Civil War era and needing to know how our Nation developed which brought this on. So I began searching for each vol to read. Page Smith is a very good historian and writer. Dedicated to his subject as the great Shelby Foote was with the Civil War. As always, it's important to find an author you can understand and enjoy. Prof Smith is not a "text book" historian. But do research his books, read a page or two and decide for yourself.0 of 0 people found the following review helpful.
