Four StarsBy AaronGood book, found good info, great reference guide and a good book to have in any historians collection.

Over 600 illustrations, many previously unpublished. Comprehensive and authoritative study explores the various insignia, uniforms, and accoutrements of Germany's air force during the first part of the era of the Third Reich. Immensely complicated dress regulations, plus rank chevrons, collar and cuff braiding, shoulder straps, helmets, head and foot wear, gloves, belts and buckles, more.
