Andrew Mollo : Uniforms of the SS: Sicherheitsdienst Und Sicherheitspolizei before purchasing it in order to gauge whether or not it would be worth my time, and all praised Uniforms of the SS: Sicherheitsdienst Und Sicherheitspolizei:

2 of 4 people found the following review helpful. No what I expected. By A Customer I had high hopes for this book based on the fact that I am a student of military uniforms and own many books on the subject of the SS uniforms. All of the photos are in BW and do not really focus on the uniform. The only thing that I thought was really helpful was the section of the book that broke down the SS rank structure. Thankfully I have studied numerous books on the subject because this book will leave a reader who has not guessing and wanting more.

Part of a selection of titles that look at the uniforms and insignia of the SS, this book is a source for the complex organization and history of the SS Security Service, the Gestapo, the infamous Action Groups and local auxiliaries raised in occupied territories.
