5 of 6 people found the following review helpful. Poor Quality By JoeB Save Your Money Very poor quality reproduction. Images, pictures and maps, are unreadable like out of focus, dark and not recognizable. If the University of Michigan did the digital reproduction as advertised it looks as if they used a poor quality xerox machine or scan

device. My new softcover looks like a copy of a copy of a copy. An online copy of the original book is available. Either buy a hard cover or download the book and print it yourself. I expected better quality for the price paid. It is not worth \$35.00 in my opinion. Joe B. Korean Veteran 0 of 2 people found the following review helpful. Five Stars By jimbook in great shape.
