4 of 4 people found the following review helpful. Terrible CalendarBy CustomerNo spiral binding, instead it opens like a book. No hole at the end of pages for hanging. All the interior pictures are blurry and out of focus. In addition, there are no labels for any of the ships for each month. Do not buy this or any product from this company for that matter.3 of 3 people found the following review helpful. Cover shot is very deceiving.By RichIf i could give this item a zero, I would. Extremely poor photos; Most are cropped so you can't see the bow or stern; many photos almost too dark to see; many photos very grainy or out of focus. should remove this from stock. Also, no captions for photos so you don't know what you are looking at. Many appear to be old reprint taken off the internet.3 of 3 people found the following review helpful. Don't like leaving feedbackBy Erik RolleDon't like leaving feedback, but I should have read previous feedback before purchasing. Picture quality was poor; I was too embarrassed to give as a gift.
